

Vertical Netting To any Height

Protect spectators and property with Coastal Baseball Netting Systems

- Engineered for specific wind load calculations and soil conditions.
- More effective than conventional chain link backstops.
- Eliminates need for horizontal netting over grandstands.
- Up to 60 foot clear spans between posts.
- Netting is made of high tenacity polyester with a field life exceeding 10 years.
- Complete turnkey installations available.
- Preserve a safe and unobstructed view of the game.
- Over 400 Netting projects across the country.
